

SAFcomm® Pty Ltd is a contractor compliance management consultancy focused on meeting the needs of our Clients, their contractors and suppliers, by offering a fully managed service to manage clients' contractor information, through capturing, verifying and updating details including insurances, licenses, QA & OHS compliance, and contractor experience and capabilities. Client/Contractor databases are available through an online web host service.

Our policy is to provide a controlled work environment that protects the health, safety and welfare of all employees and other persons at our work sites. The company accepts its responsibility as an employer, to train and assist all employees in safe work practices, and seeks the full support and co-operation of all employees.

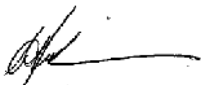

Our commitment:

- Senior Management will meet its obligations to the Act, Regulations, and Codes, by preparing a Workplace Health and Safety Plan appropriate to the management of health and safety at all work sites.
- The company is committed to eliminating workplace related injury and illness.
- Supervisors are committed to implementing and monitoring good health and safety practices in their specific areas of operation.
- All employees have a personal responsibility to their employer, their fellow workers, themselves and the general public to adopt and maintain appropriate health and safety standards in all their work activities.

Our Safety Program may include but is not limited to:

- ensuring that purchased equipment and materials does not compromise health or safety and is fit for purpose
- identifying hazards at our work site using risk management procedures
- assessing the risks that may result from hazards
- preparing written control measures to prevent, or minimise, the level of risks
- establishing measurable objectives and targets
- inspecting, monitoring, and reviewing the implementation and effectiveness of the safety program
- making improvements to our Health & Safety program
- establishing a reporting system so that supervisors and management are quickly informed
- involving personnel in discussions and decisions that improve health and safety conditions.

At all times the company will maintain health and safety as a priority, and will not knowingly demand or expect any person to participate in any activities which are likely to be detrimental to their health or safety
